FOREWORD

The Tennessee Achievement School District’s (“ASD”) mission is to flip the educational paradigm in Tennessee by proving that the lowest performing 5% of schools in the state can achieve at the same levels as the top quartile schools within five years. The ASD will do this by creating school cultures that support teachers, improve student outcomes, and sustain high levels of student achievement over time.

PURPOSE OF MANUAL

The purpose of this manual is to document the accounting, budgeting, treasury, and procurement policies and procedures of the ASD. This manual applies to the Achievement School District’s directly-run schools (“achievement schools”) and its centralized school support operations. It does not apply to organizations authorized and contracted by the ASD to operate charter schools.

GUIDING PRINCIPLES OF THE ASD FINANCIAL POLICIES & PROCEDURES

- Transparency. Financial reporting will be transparent, and align to the budgets developed for each school and central operations.
- Equity. To the greatest extent possible, funds will follow the students, and will be allocated to address the unique needs of each student at ASD schools.
- Autonomy. School leaders will be given autonomy over the controllable expenditures in their financial statements. They may allocate resources in such ways that maximize student outcomes. These resource allocations may change, even during the school year, as academic results are measured and funding requirements are adjusted.
- Accountability. The ASD assumes responsibility, within its financial capabilities, for providing at public expense all services, equipment, and supplies that may be required in the interest of education in the schools under its jurisdiction. In exchange for autonomy, school leaders will be held accountable for the financial results at their schools.

OBJECTIVES OF THE ASD FINANCE & ACCOUNTING FUNCTION

- To ensure liquidity and solvency of the ASD
- To promote resource allocation in the annual budgeting and long term financial planning process that is aligned to the ASD’s mission and strategic plan and mission
- To provide the ASD’s leadership team and the Commissioner with timely and accurate financial information to make decisions
- To establish efficient procedures for accounting, reporting, purchasing delivery, payroll, and payment of vendors and contractors
- To ensure compliance with all applicable federal, state, local and private funds and regulations

ACCOUNTING, FINANCIAL REPORTING, AUDIT, BUDGETING & BANKING POLICIES

Accounting

a. Conformance with Governmental GAAP & Chart of Accounts

A primary emphasis of the ASD’s accounting policies is to define account classifications that provide meaningful financial management information to its users. As part of this emphasis, the manual is written to conform to generally accepted accounting principles (GAAP) and a uniform minimum

standard of and guidelines for financial accounting and reporting. ASD's adherence to GAAP implies that its financial reports contain the same types of financial statements for the same categories and types of funds and account groups. Such conformity enhances the comparability of ASD financial reporting to similar organizations. The main principles applicable to the ASD are summarized below:

- **Governmental Accounting Standards Board (GASB).** Because the ASD is an organizational unit of the Tennessee Department of Education, the ASD's accounting must follow accounting standards, recognition and measurement bases established by the Governmental Accounting Standards Board (GASB).
- **Fund accounting system.** The ASD accounting system must be organized and operated on a fund basis, using the Tennessee Uniform Chart of Accounts. Shared expenses will be recorded and allocated among locations, functions, funds, and/or contracts according to established policy. The allocation methodology will be reviewed periodically.
- **Financial reporting capabilities.** ASD's accounting system must be capable of producing financial reports in conformity with governmental GAAP and with legal requirements if the two are different;
- **Budgeting, budgetary control and budgetary reporting.** ASD should adopt annual operating budgets and certain of those budgets should be reported in the state's financial statements;
- **Revenue, expenditure, transfer, and expense account classifications.** ASD should provide for the classification of revenues, expenditures, and expenses into certain specific categories in accordance with the Tennessee Uniform Chart of Accounts.

b. Cash

Cash as defined within this manual shall include any and all payments made to or from the ASD with checks, money orders, wires, ACH credits, credit cards, debit cards, as well as currency and coins. - Checks for payment are prepared in NetSuite.
- Checks for an amount greater than \$2,500 must have two authorized signatures.

Expenses

Expenses are charged to programs based upon a direct cost rationale and charged directly to programs and schools when specific identification is available. Shared expenses will be recorded and allocated among functions, funds, and/or contracts according to established policy. The allocation methodology will be reviewed periodically. Expenses are prohibited to be used for any purpose that is ineligible under a funding award. Expenditures for each grant, loan, or contract are to be recorded according to the budget categories for that particular funding source. For each funding award, ASD will maintain records that allow for a comparison of outlays with approved budget amounts. When there are government funds involved, ASD will follow OMB A-87 cost principles. When there are government funds involved, programs and grants will not be charged for OMB A-87 un-reimbursable items such as, but not limited to: entertainment, fundraising expenses, bad debts, fines or penalties or interest on debt. Before ASD seeks reimbursement from a funder, it will ensure that the costs for which it is seeking reimbursement are allocable to that funder. A cost will be considered allocable to an external funding source (unless otherwise prohibited) if it is treated consistently with other costs incurred for the same purpose in like circumstances and if:

- a. The cost is incurred specifically for the award,
- b. The cost benefits both the award and other work and can be distributed in reasonable proportion to the benefits received, or
- c. Is necessary to the overall operation of the organization, although a direct relationship to any particular cost objective cannot be shown.

Any cost allocable to a particular award or other cost objective may not be shifted to other awards to overcome funding deficiencies, or to avoid restrictions imposed by law or by the terms of any award of funds.

Capital Assets

ASD will follow governmental generally accepted accounting principles when determining whether an

asset or group of assets should be classified as capital or operating. Capital assets are those assets that have a useful life extending beyond a single reporting period. Capital assets should be recorded at their original, historical cost, and their records must be maintained in a complete, accurate and detailed manner with the consideration of depreciation, including infrastructure assets and historical treasures. Examples of capital assets include buildings, equipment, land and easements, machinery, vehicles, and infrastructure (such as lighting systems and sidewalk systems). Purchase of capital assets should be made in accordance with procurement and accounts payable procedures.

At the time of this manual's development, it is anticipated that the ASD will lease, not own, buildings and land. It is anticipated that ASD will assume ownership of capital assets such as computer equipment, lab equipment and furniture in its leased school buildings. ASD shall abide by the corresponding legislation to guide the financial matters associated with transfers of schools into and out of the ASD, including the capital assets assumed by the ASD upon transfer of the school. At the time of this manual's development, it is anticipated that legislation will provide for the "ASD to have the right to use any school building and all facilities and property otherwise part of the school and recognized as part of the facilities or assets of the school prior to its placement in the ASD and shall have access to such additional facilities as were typically available to the school, its students, faculty and staff prior to its placement in the ASD. Such use shall be unrestricted and free of charge, except that the ASD shall be responsible for and obligated to provide for routine maintenance and repair such that the facilities and property are maintained in as good order as when the right of use was acquired by the ASD... Extensive repairs to buildings or facilities considered capital expenses shall be the responsibility of the LEA and not the ASD. Any fixtures, improvements or tangible assets added to a school building or facility by the ASD shall remain at the school building or facility upon its return to the LEA."

In the future, should the ASD own infrastructure assets, and those assets are part of a network or subsystem of a network, they will not be required to be depreciated as long as the ASD manages those assets using an asset management system that has certain characteristics and the ASD can document that the assets are being preserved.

Student Activity Funds

The ASD adopts the Tennessee Internal Uniform Accounting Policy Manual as a guide for the internal school accounting system for each school. Each school shall maintain a copy of this guide and the ASD will ensure that each school's Director of Operations receives related training. Student activity bank accounts are established as required by the Tennessee Department of Education ("TDE"). Cash will be deposited into the depository bank within one (1) business days of receiving the payment at the point of collection. Cash deposits will be entered into the general ledger within five (5) business days of making the deposit to the bank. All checks over a pre-approved threshold (\$ 2,500) written on the ASD accounts require two (2) signatures. Individuals authorized to sign checks may include the School Principal, Director of Finance, Chief Operating Officer, and the Superintendent. All persons authorized to sign checks out of a student activity bank account will be formally approved by the Commissioner. Banks are promptly notified of all changes of authorized check signers. All checks are to be pre-numbered and accounted for (used, voided, not used). Voided checks are to be properly defaced and maintained. Bank reconciliations are to be done monthly by the school, and the trial balance shall be provided by each school to the Accounting Manager by the 20th day of each month.

In addition to making available the ASD's Statement of Net Assets, the Statement of Activities, the Governmental Funds Balance Sheet, and the Statement of Revenues, Expenditures and Changes in Fund Balances, the ASD shall make available to its management team, upon request, budget to actual comparisons of revenue and expenditures by location with corresponding analysis of remaining budgets, significant negative and positive variances, and potential risks to the fund balance of the ASD.

 - Records to be maintained include copies of contracts, invoices, proof of payments, payroll records, and allocation tracking.
 - All files that can be stored electronically will be done so in a manner consistent with all applicable laws and regulations.

A contract may thus be formed through an invoice, an accepted purchase order or a longer contract document (a contract, in fact, does not need to be in writing to be enforceable).
