Dear Ms. Anderson,

As the President/CEO of Neighborhood Christian Centers, Inc., I am writing to express to you my support of Bobby White and Frayser Community Schools as a Charter School in the greater Memphis area.

The mission of Neighborhood Christian Centers, Inc. is to guide those in need toward stability and sustainably through Christ-centered ministries and empowerment programs.

Our vision is to service our neighbors in need by meeting their practical and spiritual needs, and assist in moving them from reliability to sustainability. Through spiritual and programmatic development, NCC seeks to offer hope to broken communities, where neighbors have been disenfranchised by society. Because their voice is often unheard, NCC advocates on their behalf through providing services and empowerment programs that aid in restoring and establishing dignity. NCC values the philosophy, "respect for the total person", regardless of their poverty-stricken circumstances. We believe that with time and consistency, this will lead to an authentic and more effective relationship, which subsequently translates into a greater ability to effect change in the individual's life, their family life, and ultimately in the community at-large.

We want to see a high quality school choices in an urban areas in Memphis and we believe together with Frayser Community Schools we can provide that to students in North Memphis.

I am pleased to support the application of Frayser Community Schools and look forward to its approval and the beginning of an urgently needed school of choice in one of our urban neighborhoods. Please do not hesitate to contact me at (901) 881-6013 or ephiej@ncclife.org.

Sincerely,

Ephie Johnson
President/CEO
Neighborhood Christian Centers, Inc.
